

Farm for sale in Campana, 300 Hectares

Descripción

Location: Cerro Campana, on the Pan-American Highway, just 30 minutes from Panama City.

Area: 300 hectares = (3,000,000 m²)

Property Features:

- Strategic location: 1.5 km frontage on the Pan-American Highway.
- Spectacular views: To the sea and the Campana National Park.
- Cool climate all year round: Mountain air and abundant vegetation.
- Natural wealth: Rivers, streams, hills and valleys that beautify the environment.

Investment Potential:

- Mining: Geological studies indicate the presence of valuable minerals, including gold deposits. Experts, such as the president of the Mining Chamber of Panama, have confirmed the gold potential of the area.
- Construction materials: The farm contains limestone and andesite, essential for the manufacture of cement and other aggregates. A mining reserve is estimated with exploitation capacity of up to 100 years.
- Tourism and real estate development: Its proximity to the city and beaches make it an ideal area for ecotourism, residential or country projects.
